

The Blades of Dawn

In the realm of Tsukihara, a land draped in mist and steeped in legends, monsters known as the Kurogami have plagued villages for centuries. These creatures, born from shadows and cursed moonlight, hunt under the cover of darkness, feeding on human fear and life force.

This is the tale of Haruto Akebane, a boy whose destiny was forged the night the Kurogami came for his family, and the Dawn Blades—an ancient order sworn to protect humanity—took him in.

Chapter 1: The Blood Moon

Haruto's footsteps echoed along the worn cobblestone path, the weight of his blade a constant reminder of the oath he had sworn. Each step brought him closer to the unknown, where the veil between life and death thinned under the pale glow of the moon. In the forests of Tsukihara, silence was a lie—every rustle carried the promise of danger. Yet Haruto pressed on, for somewhere beyond the hills, a village awaited salvation from the Kurogami's hunger. This night, like so many before, would test his resolve, skill, and the bonds he had forged with his fellow Dawn Blades.
